

## University Health System in South Texas Selects Allscripts for Community Connectivity

March 7, 2012

CHICAGO and SAN ANTONIO, March 7, 2012 /PRNewswire/ -- <u>University Health System</u>, the lead trauma center for South Texas, will use <u>Allscripts Community Record TM</u>, powered bydbMotion, to share patient data with its facilities and the University of Texas (UT) Health Science Center San Antonio. The Allscripts solution will help provide a single patient record for the many physicians and patients who use both facilities.

(Logo: http://photos.prnewswire.com/prnh/20100901/CG58147LOGO)

Anchored by a 498-bed University Hospital, University Health System is a nationally recognized academic medical center that partners with UT. University Health System, which since 2003 has used Allscripts Sunrise Enterprise<sup>TM</sup> acute care Electronic Health Record and Sunrise Ambulatory. TM EHR in the hospital and for its nearly 700 employed physicians at 24 locations, desired a way to enhance the transitions of care between each of its facilities as well as between its facilities and UT.

"Extending our Allscripts solution will enable us to provide continuity of care for our patients, many whom use both facilities," said Bill Phillips, Vice President and Chief Information Officer at University Health System. "We believe one integrated patient record will save time for providers and patients, as well as reduce duplicate tests."

Allscripts Community Record will enable sharing of patient information between University Health System's Allscripts solutions and the systems deployed at UT San Antonio. The Allscripts solution will aggregate and harmonize data from University Health System's 24 locations and data from

"We're committed to helping our clients enable smooth transitions of care for patients," said Glen Tullman, Chief Executive Officer of Allscripts.

"University Health System will soon be able to make patient information available to its physicians, nurses, and caregivers wherever and whenever the patient needs care, which will improve quality, better manage costs, and enhance patient satisfaction. This is the kind of win-win that healthcare has been searching for."

## **Forward-Looking Statements**

This press release contains forward-looking statements within the meaning of the federal securities laws. Statements regarding future events or developments, our future performance, as well as management's expectations, beliefs, intentions, plans, estimates or projections relating to the future are forward-looking statements with the meaning of these laws. These forward-looking statements are subject to a number of risks and uncertainties, some of which are outlined below. As a result, no assurances can be given that any of the events anticipated by the forward-looking statements will transpire or occur, or if any of them do so, what impact they will have on our results of operations or financial condition. Such risks, uncertainties and other factors include, among other things: the possibility that the expected synergies, efficiencies and cost savings of the merger with Eclipsys Corporation ("Eclipsys") will not be realized, or will not be realized within the expected time period; potential difficulties or delays in achieving platform and product integration and the connection and movement of data among hospitals, physicians, patients and others; the risk that the Allscripts and Eclipsys businesses will not be integrated successfully; competition within the industries in which we operate; failure to achieve certification under the Health Information Technology for Economic and Clinical Health Act could result in increased development costs, a breach of some customer obligations and could put us at a competitive disadvantage in the marketplace; the volume and timing of systems sales and installations, the length of sales cycles and the installation process and the possibility that our products will not achieve or sustain market acceptance; the timing, cost and success or failure of new product and service introductions, development and product upgrade releases; competitive pressures including product offerings, pricing and promotional activities; our ability to establish and maintain strategic relationships; undetected errors or similar problems in our software products; the outcome of any legal proceeding that has been or may be instituted against us; compliance with existing laws, regulations and industry initiatives and future changes in laws or regulations in the healthcare industry, including possible regulation of our software by the U.S. Food and Drug Administration; the possibility of product-related liabilities; our ability to attract and retain qualified personnel; the implementation and speed of acceptance of the electronic record provisions of the American Recovery and Reinvestment Act of 2009; maintaining our intellectual property rights and litigation involving intellectual property rights; risks related to third-party suppliers and our ability to obtain, use or successfully integrate third-party licensed technology; and breach of our security by third parties. See our Annual Report on Form 10-KT for the seven months ended December 31. 2010 and other public filings with the SEC for a further discussion of these and other risks and uncertainties applicable to our business. The statements herein speak only as of their date and we undertake no duty to update any forward-looking statement whether as a result of new information, future events or changes in expectations.
