

Evangelical Community Hospital Selects Allscripts Sunrise Health Record System

June 13, 2012

LEWISBURG, Pa., June 13, 2012 /PRNewswire/ -- As Evangelical Community Hospital in Lewisburg moves toward opening its new Surgical and Cardiovascular Expansion in early July, much consideration was given to choosing a coordinated communication system for healthcare information technology.

By selecting Allscripts Sunrise Clinical Manager™, an acute care Electronic Health Record system, Evangelical intends to save time, improve its management of clinical information, and enhance overall patient care. The new system supports collaborative care across the Hospital's regional locations and departments, supports critical decision-making, and automates processes for accuracy and safety. It provides all caregivers real-time access to patient information such as medications, test results and diagnoses – information that is critical to a patient's care experience.

Evangelical Community Hospital already uses Allscripts solutions for its outpatient electronic health record. The addition of the Allscripts Sunrise Clinical Manager solution will help the Hospital migrate its inpatient data and information to an electronic format and provide a seamless and integrated electronic information solution across the Hospital.

"Our goal is to help Evangelical continue to enhance patient care while saving staff time," said Glen Tullman, Chief Executive Officer of Allscripts. "Taking this next step in our partnership helps Evangelical better integrate hospital visit information into the overall patient record, improving outcomes."

About Evangelical Community Hospital:

Evangelical Community Hospital is a non-profit organization that employs approximately 1,300 people and has more than 170 employed and non-employed physicians on staff. The Hospital is licensed to accommodate 127 overnight patients, 12 acute rehab patients and 18 bassinets. The Hospital serves residents throughout the Central Susquehanna Valley, including those living in Snyder, Union, Northumberland and Lycoming Counties, and has earned the HealthGrades Patient Safety Excellence Award for four consecutive years.
