

Allscripts Releases Sunrise Revenue Cycle Management Solution

December 5, 2012

Sunrise Financial Manager™ designed for the new world of Accountable and Value Based Care

CHICAGO, Dec. 5, 2012 /PRNewswire/ -- Allscripts [Sunrise Financial Manager](#)™ (SFM), a solution that enables hospitals and health systems to manage revenue in an integrated way across the enterprise, is now available. The latest in a long line of revenue cycle solutions from Allscripts, SFM breaks new ground with its Visual Workflow capabilities, allowing users to configure the financial process to meet the organization's needs and to address constantly changing regulations and payment models in the new world of accountable care.

Sunrise Financial Manager is built on the [Sunrise Enterprise](#)™ 6.0 platform. [Allscripts Sunrise Clinical Manager](#)™ (SCM), Sunrise Financial Manager, [Sunrise Enterprise Registration](#)™ and [Sunrise Enterprise Scheduling](#)™ all run the same platform using one database. This provides Allscripts clients with a modern, integrated clinical and financial platform, designed for use with the new value based care payment models.

Jefferson Regional Medical Center has signed on as an early adopter of SFM. Jefferson is a long-standing user of Sunrise Clinical Manager and Sunrise Enterprise Registration.

Sunrise Financial Manager was developed with the future in mind. The solution's flexibility helps organizations adapt to change while mitigating business interruption. At the heart of this concept is Sunrise Visual Workflow, a workflow tool that allows for rapid adaptation to change.

SFM supports the hospitals and health systems efforts to:

- Avoid re-work and manual processes by redesigning common activities with Visual Workflow
- Improve cash flow by making the billing process accurate, complete and timely across the enterprise
- Speed payments by being notified of status of claims to avoid bottlenecks
- Standardize on one patient financial solution for both institutional and professional billing and receivables management

"Sunrise Financial Manager completes our integrated solution stack for hospitals and healthcare organizations who need to survive and thrive in a world of Accountable and Value Based Care," said Glen Tullman, Chief Executive Officer of Allscripts. "Designed using the latest Microsoft technology with the future in mind, the system is integrated, connected and focused on care coordination across a patient's total health experience."

Forward-Looking Statements

This press release contains forward-looking statements within the meaning of the federal securities laws. Statements regarding future events or developments, our future performance, as well as management's expectations, beliefs, intentions, plans, estimates or projections relating to the future are forward-looking statements with the meaning of these laws. These forward-looking statements are subject to a number of risks and uncertainties, some of which are outlined below. As a result, no assurances can be given that any of the events anticipated by the forward-looking statements will transpire or occur, or if any of them do so, what impact they will have on our results of operations or financial condition. Such risks, uncertainties and other factors include, among other things: the possibility that the expected synergies, efficiencies and cost savings of the merger with Eclipsys Corporation ("Eclipsys") will not be realized, or will not be realized within the expected time period; potential difficulties or delays in achieving platform and product integration and the connection and movement of data among hospitals, physicians, patients and others; the risk that the Allscripts and Eclipsys businesses will not be integrated successfully; competition within the industries in which we operate; failure to achieve certification under the Health Information Technology for Economic and Clinical Health Act could result in increased development costs, a breach of some customer obligations and could put us at a competitive disadvantage in the marketplace; the volume and timing of systems sales and installations, the length of sales cycles and the installation process and the possibility that our products will not achieve or sustain market acceptance; the timing, cost and success or failure of new product and service introductions, development and product upgrade releases; competitive pressures including product offerings, pricing and promotional activities; our ability to establish and maintain strategic relationships; undetected errors or similar problems in our software products; the outcome of any legal proceeding that has been or may be instituted against us; compliance with existing laws, regulations and industry initiatives and future changes in laws or regulations in the healthcare industry, including possible regulation of our software by the U.S. Food and Drug Administration; the possibility of product-related liabilities; our ability to attract and retain qualified personnel; the implementation and speed of acceptance of the electronic record provisions of the American Recovery and Reinvestment Act of 2009; maintaining our intellectual property rights and litigation involving intellectual property rights; risks related to third-party suppliers and our ability to obtain, use or successfully integrate third-party licensed technology; and breach of our security by third parties. See our Annual Report on Form 10-K for 2011 and other public filings with the SEC for a further discussion of these and other risks and uncertainties applicable to our business. The statements herein speak only as of their date and we undertake no duty to update any forward-looking statement whether as a result of new information, future events or changes in expectations.
