

Resolute Health selects Allscripts Electronic Health Record

February 28, 2013

New health and wellness provider will use Allscripts to manage population health

CHICAGO, Feb. 28, 2013 /PRNewswire/ -- Resolute Health, a new health and wellness provider based in New Braunfels, Texas, selected [Allscripts](#) (NASDAQ: MDRX) [Sunrise Clinical Manager](#)™ Electronic Health Record (EHR) with the goal of improving its community's health by providing better, more efficient care. In addition to creating innovative health and wellness programs as part of its clinically-integrated delivery system, Resolute, a division of Vanguard Health Systems, is building a full-service, fully integrated hospital opening in spring, 2014. Resolute will also use [Allscripts Community Record](#) for information exchange and for its HIE and analytics.

Resolute Health's goal is to empower patients with tools that help them engage in the pursuit of health and wellbeing. The organization's approach promotes prevention first and foremost.

"We chose Allscripts because it gives us an open platform as well as a one database solution for physician practices and hospital needs," said Roderick Bell, chief information officer, Resolute Health. "Allscripts Sunrise Clinical Manager coupled with the use of Allscripts Community Record will make for a powerful, integrated population health management solution."

Resolute will strive to better manage population health for the community in all of its ambulatory settings, for instance in Resolute's Endocrinology and Diabetes Institute. Resolute is attacking the high incidence of diabetes in Comal County, Texas, which currently affects some 12 percent of the county's population. If left untreated, the rate is expected to jump to 25 percent by 2040. The institute provides a team approach to care and support for adults with diabetic, endocrine and metabolic issues. Utilizing Allscripts Community Record will enable Resolute to better manage this segment of the patient population in Comal and surrounding counties.

"We support Resolute Health's commitment to prevention and look forward to providing the organization with tools to help meet its population health goals," said Paul M. Black, president and chief executive officer, Allscripts. "The use of Allscripts will enable Resolute's providers to help keep the community healthy."

Forward-Looking Statements

This press release contains forward-looking statements within the meaning of the federal securities laws. Statements regarding future events or developments, our future performance, as well as management's expectations, beliefs, intentions, plans, estimates or projections relating to the future are forward-looking statements with the meaning of these laws. These forward-looking statements are subject to a number of risks and uncertainties, some of which are outlined below. As a result, no assurances can be given that any of the events anticipated by the forward-looking statements will transpire or occur, or if any of them do so, what impact they will have on our results of operations or financial condition. Such risks, uncertainties and other factors include, among other things: the possibility that the expected synergies, efficiencies and cost savings of the merger with Eclipsys Corporation ("Eclipsys") will not be realized, or will not be realized within the expected time period; potential difficulties or delays in achieving platform and product integration and the connection and movement of data among hospitals, physicians, patients and others; the risk that the Allscripts and Eclipsys businesses will not be integrated successfully; competition within the industries in which we operate; failure to achieve certification under the Health Information Technology for Economic and Clinical Health Act could result in increased development costs, a breach of some customer obligations and could put us at a competitive disadvantage in the marketplace; the volume and timing of systems sales and installations, the length of sales cycles and the installation process and the possibility that our products will not achieve or sustain market acceptance; the timing, cost and success or failure of new product and service introductions, development and product upgrade releases; competitive pressures including product offerings, pricing and promotional activities; our ability to establish and maintain strategic relationships; undetected errors or similar problems in our software products; the outcome of any legal proceeding that has been or may be instituted against us; compliance with existing laws, regulations and industry initiatives and future changes in laws or regulations in the healthcare industry, including possible regulation of our software by the U.S. Food and Drug Administration; the possibility of product-related liabilities; our ability to attract and retain qualified personnel; the implementation and speed of acceptance of the electronic record provisions of the American Recovery and Reinvestment Act of 2009; maintaining our intellectual property rights and litigation involving intellectual property rights; risks related to third-party suppliers and our ability to obtain, use or successfully integrate third-party licensed technology; and breach of our security by third parties. See our Annual Report on Form 10-K for 2011 and other public filings with the SEC for a further discussion of these and other risks and uncertainties applicable to our business. The statements herein speak only as of their date and we undertake no duty to update any forward-looking statement whether as a result of new information, future events or changes in expectations.
