

South Nassau Communities Hospital Expands Allscripts Sunrise(TM) With Anesthesiology to Clinicians' iPads

March 11, 2015

Mobile Anesthesiology Solution by iProcedures Extends the Power of Allscripts Sunrise(TM)

CHICAGO, March 11, 2015 (GLOBE NEWSWIRE) -- South Nassau Communities Hospital chose [Allscripts](#) (Nasdaq:MDRX) to provide its anesthesia information management system (AIMS). The solution, iPro Anesthesia from [iProcedures](#), integrates with the Allscripts Sunrise™ electronic health record (EHR) to ensure a complete and continuous patient record anywhere anesthesia care is provided.

Anesthesia is an important part of the EHR, and the addition of iPro Anesthesia will further leverage South Nassau Communities Hospital's Allscripts Sunrise investment. South Nassau Communities Hospital will deploy the solution in all of its operating rooms and labor and delivery rooms.

iPro Anesthesia is an intuitive, easy-to-use, AIMS platform designed by anesthesiologists for anesthesiologists. This platform helps anesthesiologists adhere to changing compliance and regulatory measures while maintaining traditional workflow. The solution offers an end-to-end dynamic AIMS solution with instant access to data, and its multi-modular platform fits the needs of virtually every hospital size and practice setting.

"The mobile AIMS solution will complement our Allscripts Sunrise EHR and offer a single patient record that is complete, comprehensive, and powerful," said Jonathan Singer, MD, chair of the Department of Anesthesiology at South Nassau Communities Hospital. "This integration, along with the ability for anesthesiologists to document anywhere anesthesia care is provided, will help improve operating room efficiency and patient care."

"The integration of iPro Anesthesia into Allscripts Sunrise addresses the reality of today's anesthesia care environment," said President, International and Sunrise Business Unit of Allscripts Rich Berner. "Our clients see anesthesiology as integral to their surgical solution, and with many anesthesia procedures performed outside of the operating room, mobility and the ability to document on the EHR anywhere, any time is critical."

Allscripts Sunrise is an integral component in a successful population health EHR solution that brings together clinical and revenue cycle management across the campus, the enterprise and the community in one unified database. Allscripts Sunrise solutions include a single EHR for emergency, inpatient and ambulatory care settings as well as platforms for patient engagement and consent management. Used by many of the leading hospitals and health systems in the world, Allscripts Sunrise is built decision-support first, offering customizable clinician-specific workflows and clinical decision support that can lead to improved outcomes.

iProcedures provides software solutions to streamline the perioperative workflow. iProcedures bridges gaps in current enterprise workflow by providing innovative technology solutions, which increase productivity and provide effective, focused, clinical care.

About Allscripts

Allscripts (Nasdaq:MDRX) is a leader in healthcare information technology solutions that advance clinical, financial and operational results. About South Nassau Communities Hospital

In recent months, South Nassau has won a series of major awards for quality care, including for nursing excellence, patient safety and top rankings from U.S. News & World Report & from the Joint Commission. Designated a Magnet® hospital by the American Nurses Credentialing Center (ANCC), South Nassau Communities Hospital is one of the region's largest hospitals, with 455 beds, more than 900 physicians and 3,000 employees. Located in Oceanside, NY, the hospital is an acute-care, not-for-profit teaching hospital that provides state-of-the-art care in cardiac, oncologic, orthopedic, bariatric, pain management, mental health and emergency services. In addition to its extensive outpatient specialty centers, South Nassau provides emergency and elective angioplasty, and is the only hospital on Long Island with the Novalis Tx™ and Gamma Knife® radiosurgery technologies. South Nassau is a designated Stroke Center by the New York State Department of Health and Comprehensive Community Cancer Center by the American College of Surgeons and is an accredited center of the Metabolic and Bariatric Surgery Association and Quality Improvement Program. In addition, the hospital has been awarded the Joint Commission's gold seal of approval as a Top Performer on Key Quality Measures, including heart attack, heart failure, pneumonia and surgical care; and disease-specific care for hip and joint replacement, wound care and end-stage renal disease.
