

Baptist Health Care Corporation Selects Allscripts Sunrise(TM) to Strengthen Patient Care and Financial Management

October 19, 2015

Solution Provides Comprehensive Single Health Care Record Across All Care Venues for Improved Clinical and Financial Coordination

CHICAGO, Oct. 19, 2015 (GLOBE NEWSWIRE) -- Baptist Health Care Corporation in Pensacola, Fla., selected Allscripts (Nasdaq:MDRX) Sunrise™ electronic health record (EHR) solution to improve the quality and safety of patient care and better manage business operations. The solution provides a single, comprehensive health care record for every patient that is accessible by clinicians at any point of care, including hospitals, ambulatory sites, physician practices and other trading partners. Non-clinical departments also access the EHR for accurate billing and financial reporting.

Baptist Health Care Corporation serves communities in northwest Florida and southern Alabama with three hospitals, including a 492 bed tertiary care facility, two medical parks and associated physician practices. In addition to Sunrise™ Acute Care, the organization is implementing a comprehensive Allscripts solution, including:

- Sunrise Revenue Cycle Management™ for accurate billing and financial reporting,
- Allscripts EPSi™ to accurately forecast and track financial risk,
- FollowMyHealth® patient engagement portal, and
- Allscripts dbMotion™ population health management platform to more easily connect with all providers that care for patients, even if they are not part of the organization's system.

Baptist Health Care Corporation will use the Allscripts Managed Technology Deployment Model for implementation, on-going 24x7 Clinical Service Desk support to help the organization stay focused on patient care and operational strategies.

"Baptist Health Care Corporation chose the Allscripts solution because it closely aligns with our goals to continuously improve our organizational performance, both for the care we provide to our communities and how we manage our operations," said Vice President and Chief Information Officer for Baptist Health Care Corporation, Steven Sarros. "Allscripts Sunrise provides the tools we need to streamline processes and deliver accurate, up-to-date health record to all clinicians at the point of care."

"After a competitive search, we are happy that Baptist Health Care Corporation chose Allscripts as their partner. The organization will leverage the Sunrise EHR & Financial Suite, combined with our comprehensive set of solutions connecting all parties in the community to deliver coordinated care," said SVP New Client Development Allscripts, Steve Holmquist. "This partnership marks a turning point in the marketplace, where the pressure for providers to deliver Value Based Care requires a HIT partner with flexible architecture, an open connectivity strategy, and solutions that go beyond the four walls of the hospital or physician's office, which makes Allscripts the clear choice."

About Allscripts

Allscripts (NASDAQ:MDRX) is a leader in healthcare information technology solutions that advance clinical, financial and operational results.
