

NextGen Healthcare and Veradigm™ Team to Improve Connectivity and Data Exchange with Payers & Labs

February 12, 2019

Pooling resources provides greater data access and improves health outcomes

ORLANDO , Feb. 12, 2019 (GLOBE NEWSWIRE) -- Today, Veradigm™, an Allscripts (NASDAQ: MDRX) business providing integrated health care data systems and services, and NextGen Healthcare Inc. (NASDAQ:NXGN), a leading provider of ambulatory-focused healthcare technology solutions, entered into a long-term agreement. This partnership will streamline workflow for healthcare provider clients and facilitate data sharing with a variety of key stakeholders, including health plans, life insurance companies, laboratories and research organizations.

"We are excited to bring together two industry leaders providing the scale required to help ease the complexity of practicing medicine," says Tom Langan, Veradigm CEO.

John S. Beck, Chief Solutions Officer and Executive Vice President, NextGen Healthcare added, "This partnership further modernizes our healthcare system by safely unlocking healthcare data to benefit the consumer, provider and supporting organizations. Streamlining data exchange reduces the burden on practices by automating the transfer of patient charts and the exchange of lab orders and results."

Today, patients expect more from their healthcare journey. This partnership is an example of how industry leaders can collaborate to deliver on that demand. When networked providers are empowered to more quickly and fully adopt next-generation research-enabled capabilities, patients can potentially benefit from optimized care plans.

"We expect this significant partnership with NextGen Healthcare is the first of many such relationships with EHR partners designed to bring to their customers the benefits of the solutions that Veradigm has pioneered over the last several years." said Jay Bhattacharyya, Veradigm Chief Strategy Officer.

About Allscripts

Allscripts (NASDAQ:MDRX) is a leader in healthcare information technology solutions that advance clinical, financial and operational results. Our innovative solutions connect people, places and data across an Open, Connected Community of Health™. Connectivity empowers caregivers and consumers to make better decisions, delivering better care for healthier populations.
