Veradigm Launches Smart Medicine Podcast to Explore the Evolution of Healthcare

June 5, 2025

Podcast supports company's mission to transform health insightfully, offering expert perspectives and proven strategies to help improve outcomes and reduce costs

CHICAGO--(BUSINESS WIRE)--Jun. 5, 2025-- Veradigm® (OTCMKTS: MDRX), a leading provider of healthcare data and technology solutions, today launched the *Smart Medicine Podcast*, hosted by renowned podcaster and orthopedic surgeon, Dr. Scott Sigman. The show will provide insights and inspiration for clinicians along with other healthcare professionals, as well as payer and life science industry leaders striving to navigate the complexities of modern medicine through incremental insight.

The podcast features expert guests including physicians, entrepreneurs, business leaders, and healthcare innovators – who will share their journeys, discuss challenges, and reveal the strategies that enable them to thrive. Through in-depth discussions, *Smart Medicine* will explore how providers are leveraging both time-tested and emerging strategies to enhance patient care, optimize business operations, and shape the future of healthcare. Future episode topics will include value-based care, medical entrepreneurship, point of care innovation, clinical and operational workflow practice management, revenue cycle management, patient and staff engagement and satisfaction, the impact of government and regulation on private practice, and the business of healthcare.

"By highlighting the real-world challenges, stakes, and rewards of these innovations, *Smart Medicine* will serve as a trusted guide for those navigating the intersection of medicine and business," said Ray Joske, VP of Marketing at Veradigm. "Each episode will follow an inspirational arc, spotlighting the obstacles overcome, the lessons learned, and the transformative impact of doing healthcare right."

Dr. Sigman is a nationally and internationally recognized leader in opioid-sparing surgery, with over 25 years of clinical experience as an orthopedic surgeon specializing in knee and shoulder procedures. Widely respected in professional education and medical device development, he has authored numerous peer-reviewed publications, and his TEDx talk on the evolution of the opioid crisis has been widely acclaimed within the industry. His podcast *The Ortho Show* became a go-to source for the latest in orthopedic news, growing to reach more than 8,000 listeners monthly, with more than 250 episodes.
