

Veradigm Product Portfolio Achieves HITRUST i1 Certification

October 21, 2026

Independent validation confirms rigorous, continuously assessed security controls protecting sensitive healthcare data across a broad set of Veradigm solutions

CHICAGO--(BUSINESS WIRE)--Oct. 21, 2026-- Veradigm® (OTCMKTS: MDRX), a leading provider of healthcare data, clinical, and revenue cycle solutions, today announced that a broad set of its solutions has achieved HITRUST i1 Certification. The certification provides validated assurance that the security controls protecting these systems have been independently assessed and centrally reviewed through the HITRUST Assurance Program. "This certification validates the strength and discipline of the cybersecurity program we've built and maintained for years. It gives our clients and prospective clients confidence that the rigor behind our security practices meets the industry's highest bar," said Tehsin Syed, Chief Product and Technology Officer of Veradigm.

About the HITRUST i1 Certification

The HITRUST i1 Certification is a threshold-based assessment built around leading security practices and designed to demonstrate real cyber resilience, not just policy on paper. It evaluates a curated set of controls chosen to address current and evolving threats. Earning it requires an organization to prove that those controls are implemented and working, verified through independent assessment rather than self-attestation.

Why It Matters

HITRUST i1 Certification gives customers and partners a standardized, independently validated assurance signal for the certified solutions. That means less uncertainty and more efficient security reviews, backed by one of the most widely recognized frameworks in healthcare.

Veradigm plans to continue investing in its security and compliance program, building on a long track record of protecting the sensitive healthcare data its clients and partners rely on every day.

Solutions that have earned HITRUST i1 Certification include:

- Veradigm EHR
- Veradigm Practice Management
- Practice Fusion
- Veradigm ePrescribe
- Payerpath
- FollowMyHealth
- Transaction Hub
- Veradigm Compliance Reporting Solution
- Veradigm eChart Courier (eCC)
- Veradigm eChart Integration and Analytics
- Veradigm eChart Coder
- Veradigm Payer Insights
- Veradigm Comprehensive Submissions
- Veradigm Risk Adjustment Analytics and Risk Mitigator
- Veradigm Quality Analytics
- Veradigm Collaborate

About HITRUST

HITRUST provides cybersecurity assurance through the HITRUST CSF® and the HITRUST Assurance Program™, helping organizations produce evidence that stakeholders can rely on with confidence. HITRUST reports that 99.62% of HITRUST-certified environments were breach-free in 2025. (Source: [HITRUST 2026 Trust Report](#))

Report Availability and Verification

Validated results are shared through the HITRUST Report Center and can be requested through Veradigm's dashboard at reportcenter.mycsf.net.

About Veradigm®

Veradigm has a proven history of delivering clinical and revenue cycle solutions that help independent practices improve outcomes and financial performance. Our AI-forward data and technology also help over 20,000 provider practices connect with health plans and biopharma to eliminate inefficiencies, close care gaps, and create a more affordable health system.
